A CLIFFORD BEERS COMMUNITY HEALTH PARTNER

IMPACT REPORT

Behind every data point is a young person experiencing homelessness. They are fleeing dangerous living environments, struggling with substance use, aging out of state care, and at risk of sexual violence and trafficking. With your help, we provide a continuum of care that includes a safe bed, transitional housing, and a path to independence.

Your support touches so many. 'Aban' is a 20-year-old refugee from Ghana. His sponsor passed away and his housing and VISA status were in jeopardy. His financial aid at an area college was taken away and he was facing deportation. We helped him secure housing and establish a temporary guardian until he turned 21 and could secure asylum as an adult. Aban is now thriving in a local college microbiology program, with a safe place to live.
